ACADEMIC PROJECTS

- **StuFor** Mar 2022 - Apr 2022
 - StuFor(or Student Forums) is a full stack web app which provides students with a platform similar to a forum where they can openly discuss their issues while being completely anonymous.
 - Spearheaded the project and coordinated the 4-man team. Coded the entire website while others documented it.
 - Built the frontend from scratch with HTML, CSS and JS and the backend with Node.js, MongoDB, Express and other packages. Read more on Github.
- **Cinematic** Jul 2022 - Jul 2022
 - Cinematic is a simple web app which allows the users to browse movies and get information on them. After signing in with Google, users can also add/remove movies to/from their watchlists to track their watch progress. Powered by the TMDB API.
 - Built using modern day tools like React, Firebase, Tailwind CSS and other essential utilities. Find it on Github.
